

## Eckhard Schoelzel

### personal details

name:	Schoelzel, Eckhard
position:	consultant
organization:	
country:	Germany
role:	reader
comments:	2

### summary:

I support leaders to better develop their potential to master complex challenges as leaders.

Special topics: Values analysis and development with the Hall/Tonna-VMI.

My belief:

There is too much management too little leadership in business.

To develop leadership means developing personality: consciousness about people and business on the level of values - personal/corporate, awareness and appropriate action via social, imaginal, systems skills.

Located at Munich/Germany
